

Sails of Glory Kickstarter funded in less than 9 hours

The first stretch goal achieved in the first day

March 6th, 2013 – The **Sails of Glory** campaign on [Kickstarter](#) started yesterday in the morning (European time) and in less than 9 hours the funding goal of \$ 30,000 was achieved. The next stretch goal, of \$ 50,000, was reached in less than 24 hours, and the *Sails of Glory* project is in the [Hot List of Tabletop Games](#) category on Kicktraq and has been selected as a “Staff Pick” of the Kickstarter staff.

Following the initial funding of US\$ 30,000 the first “stretch goal” of US\$ 50,000 achieved, opens the “shipyard” to create the HMS Victory. Next goals are US\$ 75,000 to fund the production of the USS Constitution, US\$ 100,000 to fund the design and production of the Sails of Glory Game Mat, and \$ 110,000, to fully fund the design and production of the Sails of Glory laser-cut, wooden version of the Attitude Indicator. Further stretch goals will be revealed as the project goes on.

Sails of Glory is a tactical Age of Sail game branded **Ares Games**, inspired by the acclaimed *Wings of Glory* system. It will feature assembled and painted ship models, ready to play out of the box, and a game system designed to accurately represent battles at sea between the large sailing ships of the past centuries.

The first series of **Sails of Glory** is set in the Napoleonic Age, an iconic period for naval wargaming. The initial release, scheduled for August 2013, will include a Starter Set - an all-in-one starting point to begin playing, including four fully painted and assembled ships - and 12 additional Ship Packs. Four of these Ship Packs will be exclusively available for backers on Kickstarter: the French frigate La Concorde, the French ship-of-the-line Fougueux, the British frigate HMS Juno, and the British ship-of-the-line HMS Bellerophon.
